RECORD OF REVIEW AND HISTORY

REV	DESCRIPTION	APPROVED	
		DATE (YYYY-MM-DD)	BY (F. initial / L. name)
-	New Release. Per ECO0146865.	2018-05-29	J. Cron
A	Added new part numbers for Embraer Legacy and Bombardier (Airbus) C Series programs. Supported by self-evaluation forms dated 08 Oct 2018 and 09 Oct 2018. Per ECO0148582.	2018-10-09	J. Cron
B	Added new part numbers itemizing repair capability for 787 fire shut-off switches. Supported by self-evaluation form dated 31 Jan 2019. Per ECO0149878.	2019-02-13	J. Cron
C	Added new part numbers for Gulfstream Xtreme. Supported by self-evaluation form dated 04 Nov 2019. Removed obsolete part number 09-530-XXXX that can no longer be supported. Updated company artwork. Per ECO0152578.	2019-11-14	J. Cron
D	Added new part number for Gulfstream Xtreme (TSDM assembly) and new 787 EFSS part numbers. Reordered list in numerical sequence to assist in searching. Per ECO0153786.	2020-05-12	J. Cron
E	Corrected Prepared By on cover page. Added part number 412400-002. Per ECO0156524.	2021-04-19	M. Anderson
F	Revised from general entries to specific article part numbers. Added part number 51250-001. Per ECO0158556 and correction per FAA request on ECO0158738.	2022-03-25	M. Anderson
G	Removed PN 15797-800. Per ECO0158803.	2022-04-04	M. Anderson
H	Added PNs 1146000-202, 32500-240, 32500-241, 434-674-1032-2020. Per ECO0159083.	2022-09-13	M. Anderson
J	Added PN 4202300-002. Per ECO0160238.	2022-11-19	M. Anderson
K	Added new part numbers. Removed dates from MP notes. Per ECO0160658.	2023-02-08	M. Anderson
L	Added new part numbers. Per ECO0161322.	2023-03-22	M. Anderson
M	Added new part number. Per ECO0162887.	2023-07-18	M. Anderson

NOTICE—Use or disclosure of information on this sheet is subject to the restrictions on the first sheet of this document.

REV	DESCRIPTION	APPROVED	
		DATE (YYYY-MM-DD)	BY (F. initial / L. name)
N	Added new part numbers. Per ECO0163163.	2023-08-23	M. Anderson
P	Removed erroneous footer on Page 11. Added new part number(s). Per ECO165232.	2024-04-26	M. Anderson
R	Added new part number(s). Per ECO0166748.	2024-10-24	M. Anderson
T	Added new part numbers. Updated Aras links. Removed references to D49628-x documents. Per ECO0167376.	2025-01-29	M. Anderson
U	Added part number(s). Per ECO0167784.	2025-03-24	M. Anderson
V	Added part number(s). Added tech data marking to cover page. Per ECO170588.	2025-07-15	M. Anderson
W	Added and removed part number(s). Corrected notes for PNs 28421-001 and 46870-001. Per ECO171340.	2025-09-17	M. Anderson
Y	Part number(s) added and/or removed. Per ECO172083.	2025-12-29	M.Anderson
AA	Part number(s) added and/or removed. Per ECO172443.	2026-02-19	M. Anderson
AB	Part number(s) added and/or removed. Per ECO172994.	2026-05-02	M. Anderson
AC	Part number(s) added and/or removed. Per ECO173287	2026-06-17	M. Anderson
AD	Added PN 1203600-002. Added reference to D49887-004. Per ECO173952.	2026-08-26	M. Anderson

See separate ECO for revision approvals and authentic PLM system release date.

ASSIGNMENT (Recipient or System Title or Function)	ORGANIZATION OR LOCATION	METHOD
Principal Aviation Safety Inspector	FAA Flight Standards District Office	Email, Certified Mail, or Hand Delivery, as preferred by the FAA
Product Lifecycle Management	Korry Electronics	Electronic, as attachment to Enterprise Change Order (ECO)
Communications Coordinator	Korry Electronics	Electronic (for website update)

NOTICE—Use or disclosure of information on this sheet is subject to the restrictions on the first sheet of this document.

2. LIST OF EFFECTIVE PAGES

The pages within this document are not treated as individual pages and are not given individual page revisions or names. The revision of the document is Rev. (dash, A, B, C … X) with a date format of DD MMM YYYY for identifying the day, month, year. The revision history is documented in the Record of Review and History section. When a change is made, the current revision and date are identified in both the Record of Review and History section and on the top of every page.

NOTICE—Use or disclosure of information on this sheet is subject to the restrictions on the first sheet of this document.

3. CAPABILITY LIST

3.1 General Discussion

Korry Electronics may perform maintenance, preventive maintenance, or alteration on parts as listed or described in its Capability List (this document), according to any limitations documented herein. The Accountable Manager is responsible for ensuring that the Capability List is consistent with the repair station ratings.

3.2 Transfer From Operations Specifications

As part of the initial creation of the Korry Capability List at revision – (dash), part numbers, descriptions, limitations, and other pertinent information are transferred from Korry Operations Specification A003. This forms a baseline of capabilities established by the FAA prior to the effectivity of this document. All procedures and requirements stated in this document for placing or adding parts in the Capability List are effective for Capability List revisions after revision – (dash).

3.3 Placing Articles on the Capability List

Before placing an article on the Capability List, a Designated Person identified in Table 1 of Operations Specification A007 will:

a) determine that the article is within the scope of the repair station's ratings;

b) perform or review and approve a self-evaluation to determine that this repair station has the appropriate housing, facilities, equipment, material, technical data, processes, and trained personnel to perform the work on that article as required by 14 CFR Part 145;

c) document the results of the self-evaluation by finishing the completion of a Capability List Self-Evaluation Form (D49887-004 Appendix A); and

d) file a copy of the Capability List Self-Evaluation Form in the company network directory structure for Product Support. This form will serve as evidence of the self-evaluation requirements of 14 CFR 145.215(c) and 145.209(d)(2), and must be available for FAA review

3.4 Document Revisions

3.4.1 Method

Revisions to the Capability List will be accomplished via a Korry Enterprise Change Order (ECO) in the Korry Product Lifecycle Management (PLM) system, according to Korry document D49620, Enterprise Change Order Process.

NOTICE—Use or disclosure of information on this sheet is subject to the restrictions on the first sheet of this document.

3.4.2 Approval

Designated Persons identified in Table 1 of Operations Specification A007 have the authority to approve revisions to the Capability List. This Capability List is a controlled document, and said Designated Persons also have the authority to determine the Korry signature approvals required to process an Enterprise Change Order (ECO) for this document, provided those approvals include both a Designated Person and the Repair Station Manager

3.4.3 FAA Acceptance

Once an initial list or revision has been approved, it will be submitted to the FAA Flight Standards District Office (FSDO) for acceptance through a submittal method acceptable to the FAA, within seven days of creation or revision.

3.5 Access by Repair Station Personnel

Access by Korry personnel to both the Capability List and Capability List Self-Evaluation Form is provided through computer interface to Korry's browser-based Product Lifecycle Management (PLM) system.

3.6 Self-Evaluation

3.6.1 Method and Frequency

Self-evaluations shall be performed through the review and documentation of the elements itemized on a Capability List Self-Evaluation Form. Such reviews will be conducted whenever a new part number is proposed for addition to the Capability List.

3.6.2 Self-Evaluation Forms

Pursuant to section 3.3, a Capabilty List Self-Evaluation Form must be completed to support addition of items to the Capability List. The itemized elements of that form shall be, at a minimum:

a. Limited Rating
b. Housing
c. Facilities
d. Equipment
e. Material
f. Technical Data
g. Processes
h. Trained Personnel

3.6.3 Qualified Evaluators

A Designated Person identified in Table 1 of Operations Specification A007 may perform the assessment of the elements in paragraph 3.6.2, or the assessment may be

NOTICE—Use or disclosure of information on this sheet is subject to the restrictions on the first sheet of this document.

conducted by a person with the following qualifications, as suggested by FAA Advisory Circular AC 145-9A:

a. experience with performing evaluations (or audits, if that is the method selected by the repair station),

b. an understanding of the requirements of Part 145, and

c. knowledge of the maintenance requirements for the particular make/model of the article to be added to the list.

Persons with those qualifications are typically a Quality Engineer or Manufacturing Engineer familiar with the product under assessment. If the assessment is performed by someone other than an A007 Designated Person, a Designated Person must indicate on the form that the person conducting the assessment has the necessary qualifications.

3.6.4 Manager Review and Action

Any Enterprise Change Order (ECO) processed to revise this Capability List must include the Repair Station Manager in the list of ad-hoc reviewers for Edit and Approval as described in document D49620, and access to the supporting Self- Evaluation Form as a required component of that review. Although a Designated Person has the authority to approve Capability List changes, assigning the Repair Station Manager to the ad-hoc review list satisfies the requirement of FAA AC 145-9A, section 5.3.2, paragraph 5 for providing results to the appropriate manager for review and action.

NOTICE—Use or disclosure of information on this sheet is subject to the restrictions on the first sheet of this document.

4. RATINGS AND LIMITATIONS

4.1 Class Ratings

None authorized.

4.2 Limited Ratings
